

RAJVARSH

RAJVARSH INDUSTRIES PVT. LTD.

Manufacturer of high-quality
stretch wrap film products

Introduction

Rajvarsh Industries Pvt. Ltd. is a leading manufacturer of top-notch quality of Stretch Films (Also commonly called Stretch Wraps). Stretch films find many applications across various industries and commercial sectors including wrapping pallets, export consignments, wrapping retail products and a lot more.

These films are easy to wrap and keep your products free of moisture, dirt or dust, and minimize shipping damages. They are an inexpensive and effective solution for protecting pelletized products across different channels.

Our products are available in an array of different widths and thicknesses to choose from. We also offer customized solutions to better cater to your needs. We strive for top-quality and our goal is to provide you only the best.

To maintain the quality, we use the latest technology and superior quality of raw materials to fabricate our products. Our products conform to the industry norms and meet the international quality standards as well. In addition to this, we completely understand the value of our clients' time and strive to make timely delivery of the goods.

At Rajvarsh, we believe that the key to a long and successful business relationships is happy and satisfied clients. And so, we aim to build trusted and lasting relationships with all of our valued clients.

Rajkumar Dharpure

CEO

Why Choose Rajvarsh Industries?

With a wide business expertise of over 30 years, our in-depth knowledge of the industry makes us the best in the market.

- **High-Quality Machinery**

We make the use of highly advanced machinery to enable us to manufacture quality products at scale.

- **Unparalleled Quality**

Quality is always our top priority.

- **Ethical Business Policy**

We believe in building our business not just through our products but also through our relationships.

- **Transparency**

What you see, is what you get.

- **Timely Delivery**

We do not keep you waiting and strive hard to deliver the products on time.

- **Competitive Price**

Superior quality products at affordable prices, guaranteed.

Hand Grade Stretch Film

We offer the best hand grade stretch film to fulfill all of your packaging requirements. This product is best known for its strength, ease-of-use, fine applicability and a very fine grip.

Our hand grade stretch film is available in a range of thicknesses for uses ranging from normal to heavy duty packaging. It is available in a thickness of 18 microns to 50 microns. Use this stretch film for complete safety to heavy loads without the need for any extra layer.

This product is manufactured using temperature friendly material and thus, is suitable for packaging of internal, external as well as frozen packaging. It is available in clear as well as colored variants. Being cost effective, this film can be used for a variety of purposes. Moreover, being transparent, it is also easy to scan.

Features

- Tear Resistant
- Requires less number of layers for application
- Provides very good stability
- Transparency makes it easy to scan barcodes
- High elongation
- Provides very good retention of load.

Machine Grade Stretch Film

Our machine grade stretch film is available in a range of 18 to 50 microns. It is best suited for medium and heavy duty application. The diameter is 75 ± 1 mm. This product is made using the finest quality raw materials and the most advanced machinery, making it as good as it gets.

This film has 200% to 250% stretching capacity with standard power pre-stretch and up to 250-300% stretching capacity with super power pre-stretch. We strictly follow the parameters set by the industry to offer this high yield.

Features

- Useful in paper, automotive and food and beverages industry
- Provides excellent elongation
- Offers very good functionality
- Provides excellent stability to the pallets
- Good for low noise applications

Coloured Stretch Film

This colored stretch film can be used to protect the goods and differentiate them as per their quality or other parameters.

You can use it to differentiate the palettes with their colors. It offers quick packing and it is extremely suitable for heavy load. This product is available in colors like green, blue, red and white.

Features

- It has good tear resistance
- Very good stretch resistance
- Offers reliable protection
- Available in various colors to differentiate palettes

Mini Stretch Film Rolls

Although mini in size, it can stretch up to three times its original length. Multipurpose stretch roll is used to protect the surfaces and edges of products.

This product is available in different lengths of sizes and is available in transparent as well as blue, red and black opaque colors.

Features

- Very convenient to use
- Tear resistant
- Does not leave gum or stick after removal
- High retention capacity
- Multipurpose use

Why Choose Our Stretch Film Products?

Our stretch film products are among the best in the industry and offer the following features and benefits:

- Durable and stiff films
- Cost effective
- Excellent packaging optics
- User friendly
- Economical transportation
- Efficient shelf space utilization
- Manufactured in an environment friendly manner
